The Classification Columns when left blank indicate Vessels never Classed by the Society.

In Col. 6 (Sailing Vessels), Col. 5 (Steamers), three dots with date (thus ∴ 3,37) indicate that the Class was withdrawn at Owner's request at the date specified. Where the Class was withdrawn in this way prior to 1st July, 1933, the three dots appear in Col. 8 (Sailing Vessels) and Col. 7 (Steamers).

In Col. 8 (Sail) and Col. 7 (Steam) Lv signifies the classification of the Underwriters' Registry, and the letters *a*, *b*, *c*, &c., indicate the letters and equipment numbers in the Rules.

A black line with date under it in Classification Column (thus $\overline{3,37}$) indicates that vessel's character was expunged from Register Book at date specified because, from reported defects, the vessel was not entitled to retain her classification; a red line with date (thus, $\overline{3,37}$) indicates withdrawal of class because of non-compliance with Society's Rules as regards surveys.

A date in Classification Column, without character, indicates that the Class has expired, or been withdrawn from absence of Survey, or non-payment of fees.

When a posting of loss, casualty, &c., is made against a classed vessel the character is expunged thus :— ~~100A1~~

Lloyd's Register of Shipping.

Attention is drawn to the record of over-all length which will be found in this edition of the Register Book.

This is the maximum length of a vessel from fore side of stem (at its uppermost part) to aftermost limit of the stern, and it is given in the cases of vessels classed with the Society as measured by the Society's Surveyors.

The over-all length is recorded in Column 11 immediately under the registered length and is indicated by the letters O.L. in parenthesis, thus:—

325·5
330·5 (O.L.)

In the cases of Italian and Finnish vessels the registered length is the over-all length, and this is recorded except where recent changes of flag have taken place and the new registered dimensions are not yet available.

MALCOLM K. SCOTT,
Secretary.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.
